EDUCATION

Sri Venkateswara University College of Engineering B.tech in Computer Science Engineering	October 2022 – July 2026 Current GPA:8.14
SJMM Maharishi Vidya Mandir,kokamthan Higher Secondary Education(HSC)	2020 Percentage:91.4%

TECHNICAL SKILLS

Frameworks/Databases: Node.js | React.js | Tailwind CSS | MySQL | MongoDB | Colab
Programming languages: C | Java | HTML | CSS | Python | Javascript
Core Subjects: Computer Organization | Operating Systems | Compiler Design
Version control Tools: Git | Github Actions | VScode | IntelliJ IDEA

EXPERIENCE

Solar Secure Solutions Web-Developer Intern	February 2024 – April 2024 Tirupati,India
---	---

- Contributed to developing **Frontend Development**
- By using **HTML,CSS,Javascript**

PROJECTS

1) Ayurvedic Plant Detection | Python,YOLO algorithm,CNN(Convolution Neural Network), VN Plant-200 dataset, Support Vector Machine (SVM)

- Contributed in developing a project which uses **Real-time detection** so that users can identify the **Medicinal** values of plants.
- With the accuracy of 94.7% we have achieved a remarkable result in **Detection**.

2) Hospitalis | React,TailwindCss,Node.js,Netlify

- Engineered** a responsive web application enabling users to schedule **doctor appointments** through an intuitive and interactive interface.
- Demonstrated **proficiency** in **frontend development**, **UI/UX principles**, and seamless **client-server** communication.
- Implemented **interactive** features such as **doctor listings**, available **time slots**, and **appointment confirmations** using React state and components.
- Link-[Hospitalis](#)

3) Portfolio website | HTML,CSS,Javascript,React,Netlify

- This is a personal Portfolio website which showcases my **skills,design** and about my work which I have been focusing on.

- Implemented best practices in **semantic HTML**, **BEM**(Block,Element,Modifier) **CSS** with **interactive UI** for best user experience.
